Projects

- Store security AI. AI-Powered Security System with Python, PyTorch · YOLOv8, LSTM and OpenCV Real-time threat detection platform for store owners and mobile money personnel in Cameroon. Built a three-layer architecture: LSTM behavioral analysis, YOLOv8 appearance classification, and YOLOv8 weapon detection.
- CryptoBridge. P2P Crypto Escrow Platform uses Flask, React, PostgreSQL, TronPy, Celery and Socket.IO Secure USDT-to-XAF (MTN MoMo) escrow system addressing scam risks in informal Cameroonian crypto trading. Implements custodial TRON wallets, MTN MoMo Request-to-Pay API, and real-time transaction updates.
- ISSTMADD Chatbot. Institutional AI Assistant uses Flask, PyTorch, LSTM and Gemini API Bilingual (EN/FR) AI chatbot for ISSTMADD university with a residual LSTM intent classifier, Gemini API fallback, admin dashboard, voice recognition, and chat history.
- Student Referral Platform. PHP · JavaScript, and MySQL Commission-based student referral system for ISSTMADD, automating 10,000 FCFA per-referral tracking and payout management.
- E-Commerce Platform. Flask, Jinja2 and SQLAlchemy Full-stack e-commerce site with cart logic, admin dashboard, and a responsive frontend.

Employment

Aug 2024 - Jun 2026	Full-stack Developer & Machine Learning Full-Stack Developer & Machine Learning Projects. Developed web applications using React, Nodejs, Python, JavaScript, HTML, and CSS. Built REST APIs for backend services. Designed and managed MySQL databases. Developed AI and machine learning models for academic projects. Used Git and GitHub for version control.
---------------------	---

Internships

Jun 2025 - Sep 2025	Developer ISSTMADD, Ngaoundere During our internship at ISSTMADD, we participated in the development of a chatbot designed to assist students throughout the admission process. The system was created to provide guidance, answer inquiries, and improve communication with prospective students. This experience enhanced my practical skills in software development and problem-solving.

Certificates

Tech Submit CITS2026 Innovation Bootcamp I successfully participated in the Tech Submit CITS2026 Innovation Bootcamp, where I engaged in innovative and technology-driven projects. The program enhanced my skills in creativity, teamwork, and problem-solving within a
--

professional environment. This experience strengthened my understanding of innovation and modern technological solutions.

Jun 2026

Gate automation

Gate Automation Certificate Earned a Certificate in Gate Automation, gaining practical knowledge of automated gate systems, access control technologies, installation, and maintenance.

Hakaton participation

IndabaX Tech Hackathon Ngaoundéré Participated in the IndabaX Tech Hackathon in Ngaoundéré, where the focus was on deep learning and the application of artificial intelligence to solve real-world societal challenges.
